

EOS Radar Sensor - Cellular JSON Payload

Cellular JSON Payload

JSON key	Type	Source resource	Unit / scaling	Description
variant	integer	EOS_VARIANT_CODE()	raw module code	EOS firmware/module variant
up_cnt	integer	encoder-local counter	increments per encoded cellular telemetry message	Uplink counter
alarm	integer	is_alarm	raw bitfield	Alarm flags
internal_temperature	integer	temp	degC	Internal temperature
capacity	integer	batt	%	Battery capacity
battery_voltage	float	vbat	mV	Battery voltage; encoder multiplies volts by 1000
radar_status	integer	r_ok	0 or 1	Radar acquisition status
radar_peaks	integer	r_peaks	count	Radar peaks found
radar_rd_1	float	rd0	m	Radar peak 1 distance
radar_ra_1	integer	ra0	dBsm	Radar peak 1 RCS/amplitude
radar_rd_2	float	rd1	m	Radar peak 2 distance
radar_ra_2	integer	ra1	dBsm	Radar peak 2 RCS/amplitude
radar_rd_3	float	rd2	m	Radar peak 3 distance
radar_ra_3	integer	ra2	dBsm	Radar peak 3 RCS/amplitude
orientation	integer	ornt	enum	Orientation
tilt_angle	integer	angl	deg	Tilt angle
